Quick activity

Battleship

1. Preparation

- Divide the class in two teams – A and B
- Hand out grid A plus a blank grid to Team A and grid B plus the blank grid to team B
- Both teams proceed and place their fleet onto their grid

2. How to play

- Team A calls out the coordinates of a square
- Team B responds with the verb that is on that square
- To 'earn' the information if the shout out was a hit or a miss, team A needs to provide **the second and third form** of that verb and use one of those in a **meaningful sentence**
- If correct, team B responds with hit or miss (or sunk if the vessel has been completed). If it is a hit, Team A will continue. In case of a miss, mark the board and it is team B's turn
- If incorrect, the team skips their turn, and it is over to team B
- Players should use the blank grid to record their shots
