Quick activity

SCATTERGORIES

In this quick activity, students have to find a word or a phrase with the given letter in the given categories. You can either set a timer of 2 to 3 minutes or – to make it more competitive – tell them to shout STOP once all categories have been completed. Everyone has to stop immediately, and the individual results get scored.

You can either decide on a letter or use a random letter generator:

e.g. this easy to use one by the Word Counter:

[Random Letter Generator Tool Online | The Word Counter](#)
